NOW, THEREFORE, in accordance with the law, Punta Gorda Isles, Inc. does hereby establish the following restrictions on the above described land which said restrictions shall run with the land.

### **SECTION 1. RESIDENTIAL USE, MULTI- FAMILY**

The lands aforementioned including all lots enlarged or recreated by shifting or relocation of side boundary lines, are restricted to the use of a multi-unit or single unit residential building.

A "unit" shall be herein and hereinafter defined as that portion of building expressly designed as living quarters for a single family; their household servants and guests. Only one building shall be erected to the lot unless the Grantor should approve, in writing, the design involving more than one building which decision the Grantor shall make in his sole and uncontrolled discretion using as his guide the aesthetic appeal. A construction shed may be placed on a lot and remain there temporarily during the course of active construction of a residence. Otherwise, no portable buildings or trailers may be moved on the lot.

**SECTION 2. NO TRADE, BUSINESS, PROFESSION, ETC.**

No trade, business, profession or other type of commercial activity shall be carried on upon any of the land covered by these restrictions without the express written consent of the Grantor. This shall not prevent an owner of a building from renting said property for residential use.

**SECTION 3. LAWNS AND LANDSCAPING**

All lawns on all sides of the buildings on the above mentioned land shall extend to the pavement line. No parking strips, drives or paved areas are to be allowed except as approved on the plot plan of the plans and specifications. Upon the completion of the building(s) on the above mentioned land the lawn area on all sides of the building(s) shall be completely sodded with grass and a sprinkler system capable of keeping this grass watered shall be installed, it being the intent that the lawn area shall be uniformly green, luxuriant, and well kept.

A comprehensive landscaping plan shall be submitted to the Grantor for his approval and a sufficient number of trees and shrubs of sufficient size shall be shown thereon in a design which shall be commensurate with the development of high-grade residential property. Said landscape plan after approval by the Grantor, in writing, shall be built and installed by the Grantee. Refusal of approval of said landscaping plan may be made by the Grantor based on purely aesthetic grounds which in the sole and uncontrolled discretion of the Grantor shall seem sufficient.

A permit to commence building construction under these restrictions may be withheld until such landscaping plans have been brought up to a standard commensurate with the terms of these restrictions. If the landscaping is not installed in accordance with the landscaping plans, Grantor may, at his discretion, enter upon the above said land and rearrange, remove or install said landscaping and make a reasonable charge for so doing and said charge shall become a lien upon the above mentioned land, as provided for under the laws of the State of Florida.

**SECTION 4. APPROVAL OF PLANS, SPECIFICATIONS, AND LOCATION OF BUILDINGS**

In order to insure that the building(s) on the aforementioned land will preserve a high standard of construction, no building or other structure shall be erected, placed, or remain on the aforementioned land until a set of the plans of the working drawings and specifications, including a plot plan showing the location of the building(s) or other structures, terraces, patios, walls, fences, driveways, property lines, poles and set-backs is submitted to the Grantor and approved by the Grantor as meeting the requirements of these restrictions and as being in accordance with the building, plumbing and electrical codes in effect at the time of construction or alteration of any building has begun. Construction requirements and specifications may include (but are not limited to) the following: tile roof, minimum roof pitch three to one, cement drives, outside building colors subject to approval. Prior to approval of plans, written approval must be obtained from the Grantor for use of the building contractor to be employed in the construction of the above mentioned building(s), or other structures. Said building contractor shall be a regularly employed bona fide building contractor duly licensed by the applicable governmental authorities and in addition shall pass such testing requirements as may be set forth from time to time by the Grantor. Said building contractor shall in addition to the foregoing requirements be required to post a performance and completion bond for the full amount of the work as shown on the plans and specifications so as to insure against the possibility of partially

completed buildings marring the beauty of the above mentioned land. Aforesaid bond shall be obtained from a recognized institutional Bonding Company and shall be of a form and wording approved by the Grantor. The Grantor, may, at his discretion, bond the construction in lieu of the above said bonding company.

Refusal of approval of plans, specifications and locations of building(s) by the Grantor may be based on any ground, including purely aesthetic grounds which in the sole and uncontrolled discretion of the Grantor seem sufficient. No alterations in the exterior appearance of the above building or structure shall be made without approval of the Grantor in writing. The provisions herein contained shall apply equally to repair, alterations, or modifications made in the above building(s).

The Grantor reserves the right (but not the obligation) to from time to time inspect the building construction as it proceeds in order to assure himself that the building is being constructed according to the plans and specifications and if it should occur that said inspections show that this is not the case then a letter shall be addressed to the contractor with a copy to the owner setting forth said objections to construction and forthwith the work on said construction shall stop and abate until said objections have been complied with and settled.

There shall be no construction signs displayed except those that may be required by law.

The issuance of a building permit or license, which may be in contravention of these restrictions, shall not prevent the Grantor from enforcing these provisions.

**20. SEWERS**

Use of property is dependent upon satisfying the State regulations governing individual sewerage disposal facilities.

However, upon installation of a sewerage collection system for the benefit of the aforescribed lands by the Grantor, his successors or assigns, or by governmental authority, the applicant, purchaser, optionee, lessee or grantee, whichever the case may be shall subscribe for the use of said sewer collection system and that upon installation of said sewer collection system the purchaser shall pay a reasonable initial service availability charge or fee for each lot being purchased or leased by the applicant, purchaser, optionee, lessee or grantee, whichever the case may be, unless required to pay said charge or fee at an earlier time pursuant to appropriate action of the State of Florida or its governmental subdivisions. The applicant, purchaser, optionee, lessee or

grantee, whichever the case may be, shall subscribe to and join said Association and become a member thereof immediately upon obtaining an interest in the aforescribed lands. If such an Association is not formed for any reason, then Grantor, its successors or assigns shall have the right to continue to perform the maintenance on Common Property and shall assess the owners for the cost as herein provided.
