BSLPOA WEBSITE

Pictures Wanted

BSLPOA website design is under way with great plans to provide a site that will be attractive, user friendly, and up to date. While the content and construction of the site is under consideration, we are seeking appropriate photos to place there. If you have a great shot of wildlife, a pretty view of our lakes or homes, or perhaps someone fishing, these are all great candidates for posting.

Please consider sharing your photos with BSLPOA Communications Director Steve Steidel and the office staff for possible selection for use on the new website. You may bring your digital photo to the office on a portable drive, memory stick, or e-mail your pictures to cmidolo.bslpoa@yahoo.com.

Our goal is to have the new website "up and running" by October 18, 2008, in time for the Annual Meeting.
