

Burnt Store Lakes Property Owners Association
Community Information Network

Community Notification #2007 - 01
(Issued 06/07/2007)

IMPLEMENTATION OF COMMUNITY NOTIFICATION NETWORK (CIN)

Beginning 06/11/2007, the Burnt Store Lakes Property Owners Association will implement a new information dissemination system designed to promptly provide important facts to Association members.

The **Community Information Network (CIN)** is an electronic mail based system that will transmit information to POA members with an active e-mail address. Each **CIN** message will be clearly marked with the BSLPOA “logo” (as shown above) and, at first, will take one of two formats:

Safety/Security Alerts – urgent information related to issues such as boil water notices, public safety advisories, or any situation requiring immediate community-wide attention.

Community Notifications – important, but less urgent information regarding community plans or activities, especially those pertaining to actions taken by the Association’s Board of Directors or staff.

Please understand the **CIN** is not designed for social purposes. The “bulletin board” system hosted by Sunny Martinek will continue as the place to list items for sale, inquire about contractors, list information about upcoming social events, etc. The Board of Directors extends its sincere gratitude to Sunny for her service on behalf of the POA and her continuing efforts as “The Voice of the Lakes.”

The POA office staff has compiled a list of members’ e-mail addresses to which **CIN** messages will be directed. To keep this list as accurate as possible, please inform the office of any change in e-mail address.

These messages will also be posted on the POA’s website: www.bslpoa.org. Just “click” on the **Alerts** or **Notifications** tab to view all current and prior messages.

If there are any questions about the **CIN** system, please don’t hesitate to contact the POA office at 639-5881.
